Intro_

Hi, I'm a freelance WebDesigner and live in Bari (Italy). I graduated in Design and next soon I've attended a master in web programming and web design. I've six-years of experience in web development. I take care of every aspect of the project both FrontEnd and BackEnd. I like getting better every day and always adding new skills. I love traveling, new technologies, astronomy, sports, and design arts.

Experiences_

Web Designer and WP Developer - Bari
- WebPlease (2013)

Developing of simple themes and plugins for WordPress. Creating of banners and mockups PSD.

Web Designer and WP Manager - Remote
- WebSelf, KirWeb, unCommons (2013-2016)

Customizing of WP themes and plugins. Building of landing pages and creating logos. FrontEnd development about WordPress themes. Support to clients and scouting new web trends.

FrontEnd Designer, WP Architect - Admin
- PixelBurst (from 2016)

Developing of WP themes and PHP web applications.

FrontEnd Designer, WP Architect - Freelance/Remote
- SideaGroup, Dinamiza, CreativeTweed (from 2017)

Developing of accurate WP themes starting from PSD models. Support and maintenance. Creating of landing pages in HTML5.

FrontEnd Designer - Freelance/Co-Worker
- 56 Factory (from 2019)

Wezen / Higgs / Naos / Saturn / Deca

Training_

Degree on Industrial Design - Bari/Italy
- Polytechnic (2011)

I've studied the processes of the industrial product from concept to marketing. I used software for 2D CAD, 3D (Rinoceros) and graphics (Adobe Suite).

Master on Web Programming - Online/Rome/Italy
- PC Academy (2013)

I've attended an official certificate in PHP and MySQL and I improved my knowledge about HTML5 and CSS3.

Online Certifications - Udemy (2018-2019)

I've attended a complete video course on Javascript ES6, Typescript, Laravel, Blade and PHP7.

Professional experiences (from 2013)

I've learned all the processes of the web project from concept to the release. Design of Mockups, use of CSS/JS frameworks, development on CMS both Front and BackEnd. Landing/templates development and PHP applications. Code cleaning, validation and versioning.
