Intro/Education_

Graduated in *Design* in 2011. Subsequently I got a master's degree in *web programming* in 2013. Today I have a 7 years of experience in web development both *FrontEnd* and *BackEnd* with focus on WordPress development. During the professional experience I learned all the development processes of a web project, from concept to publication. Freelancers since 2018 I'm on constant updating. I love cinema, traveling, design and astronomy.
